

## **Spanish Lessons**

Hola Amigos,

I am giving you some videos that the students can watch for Spanish learning. I will be updating this each week as needed. Some of it is review and some will be new vocabulary. When teaching a language, repetition is key. The more familiar the learner is with the vocabulary and its use, the more they will be able to remember it. I hope and pray you are all well and safe. God bless and see you all soon!
